

I feel that the pre-school runs perfectly well and I have not encountered any problems with the general day to day running of the pre-school. The pre-school provides a lot of information and I am always kept up to date and well informed of any activities and events that the children are taking part in. I feel that the children progress very well at the pre-school and I have noticed that my child has improved and progressed very well in all his learning since starting the pre-school last year. The pre-school has plenty of facilities and resources, there is enough resources to keep them busy and active during their time at pre-school. The staff at the pre-school are very polite and helpful. The staff are always more than happy to listen and help with any concerns they always make all the children feel very welcome and as a parent ~~they~~ I feel that they provide a safe and happy environment for my child. My child always has happy and positive things to say about his time in pre-school.
